WEEK 3 OCT 19 - 23				
WEEK 4 OCT 26 - 30				

Fill this out at the beginning of the month, including specific weekly actions to reach your monthly milestones. THEN, AT THE BEGINNING OF EACH WEEK: Review the week's actions and set priorities for your time. Make sure you have made space in your week (get out your calendar) for the appropriate time to work on each activity. AT THE END OF EACH WEEK: Track your progress, celebrate your successes, and shift, eliminate or add actions for the following week, if needed. It is natural to need to revisit your actions and adjust at the beginning and end of each week, because many of your goals require discovery through the process. Flexibility and patience with yourself while remaining focused on your overall goals is key!
